

O'NEAL PROTESTS GAS RATE

Gates Slayer Is
Taken; He Admits
2 Other Murders

Illinois Wants Him,
Though Texas, Arkansas
Also Have Claims

"ON CRIME TOUR"

Lester Brockelhurst Seized
in New York State
With Woman

POUGHKEEPSIE, N. Y.—(AP)—Lester Brockelhurst, 23, a paroled convict and former Sunday school teacher, sat moodily in a Dutchess county cell Friday, three men dead from his gun in what Lieutenant H. A. Gay of the state police called a six-weeks crime tour.

His victims, named by Gay from reports received from police, were: Albin Thander, 47, of Rockford, Ill., a tailor.

Jack Griffith, of Fort Worth, Texas, a tavern owner.

Victor Gates, of Little Rock, Ark., planter.

Gay said he understood the chief of police of Rockford was flying to New York to seek extradition of Brockelhurst.

Assistant District Attorney Eli Gellert of Dutchess county said the first state to send a representative here to claim the alleged killed would get him.

Confesses Three Murders

BREWSTER, N. Y.—(AP)—Lester Brockelhurst, 23, Illinois paroled convict admitted here late Thursday that he wanted to kill Victor A. Gates, 58, of Little Rock, Ark., owner of extensive land interests a week ago Thursday in order to get Gates' auto for the convenience of himself and a woman.

With Brockelhurst was arrested Detective Felton, alias Bernice Felton of Rockford, Ill.

Brockelhurst admitted that he shot a man near Little Rock a week ago but said that he did not know the man was dead and did not know his name.

Also police said that he confessed to murders at Rockford, Ill., and Dallas, Texas.

The car in which the couple was riding when arrested is believed to have belonged to Mr. Gates. The cushions of the rear seat were bloodstained.

The couple was arrested because Motorcycle Officer Joseph Hunt noted that their car had no license plates. Brockelhurst attempted to escape when Hunt ordered him to stop but the officer soon overtook him. The officer found a loaded 32 caliber revolver in the car.

"I was riding up the Boston Post road," said Motorcycle Officer Hunt, describing Brockelhurst's arrest, "and saw this old car rolling along."

"I asked him why the slips covers on the seats were torn off, and he said: 'They were dirty.'"

Pieces of cloth like auto seat covers were found wrapped around Mr. Gates' body.

"Then I saw the blood," Hunt continued, "and decided to pull him in." Lieutenant Gay of the State Police who questioned Brockelhurst at the station continued the story from there.

"I looked him over and just on a chance said: 'You've been pulling stickups all over the country, haven't you?'"

He said, 'Yes, and I pulled off a couple of murders, too.' Then he told about them.

"He's a meek looking guy, but he'll kill you in a minute. His eyes are set way back in his head, and they look dull, but every once in a while while you're talking to him they flame up and seem to flash fire."

4 1/2 Million Lost
on 'Empire State'

World's Highest Skyscraper
Costs Investment
Trust Heavily

WASHINGTON.—(AP)—Securities Commission lawyers asserted Thursday that an investment trust lost \$4,425,000 in connection with the financing of the Empire State building, New York's 1,248-foot skyscraper.

The Chatham Phenix Allied Corporation, an investment trust sponsored by the Chatham Phenix National bank, bought second mortgage debentures at a net cost of \$5,825,000, David Schenker, SEC lawyer, brought out.

He elicited testimony from Louis G. Hoffman, trust president of the bank, that Kaufman purchased the debentures from the investment trust, paying for them with 48,000 shares of Chatham Phenix bank stock, which at that time had a market value of only \$1,500,000.

Schenker pointed out that the investment trust participated in the financing of the mammoth building "at a time when the stock market crash had occurred and the real estate market had started to slump." The lawyer is directing an inquiry into practices of investment trusts in general.

Erosion Control Through Reforestation

The view shows Soil Conservation Service reforesting steep, badly eroded land retired from cultivation on this farm which is following a co-ordinated Soil Erosion Control Program.

Many farms in southwest Arkansas have similar acres that are much too steep or badly eroded to expect profitable returns from ordinary farm practices. Under a co-ordinated erosion control program each farm is taken as a single economic unit. Complete treatment is given to every acre according to its needs and adaptability. The program for each farm in the demonstration area calls for full treatment of every acre affected and for the employment of all the known

measures for erosion control. Visitors to the Hope project area Friday, May 21, will have an opportunity to observe by actual field tests each of the 12 phases of the co-ordinated erosion control program. Strip cropping, terracing, contour cultivation, pasture development, woodland management, gully control, fire prevention and cover crops are among the many features that may be observed on this special visiting day.

2 Valedictorians
for Hope Seniors

Enola Alexander and Horace Jewell Highest
in Class of 76

For the first time in the history of the school there will be two valedictorians for the graduating class of Hope High School.

Enola Alexander and Horace Jewell have won the highest ranking honors in a class which numbers 76. Both students have been outstanding in their service to the school. Enola Alexander being president of the National Honor Society and secretary of the Library Club, and Horace Jewell being president of the senior class, vice-president of student council, and a member of the editorial board of the "Hi-Lights," the school paper. Their records in school have been outstanding in every respect.

A large number of the class of 1937 have high ratings in scholastic standing of which 25 have won the rank of honor students. The entire class of 1937 have made contributions to every activity of the school, being one of the strongest classes that the school has turned out.

Those making the honor roll for three-year students are:

Horace Jewell, Enola Alexander, Mary Della White, Evelyn Bryant, Lester Roberts, Arline Holly, Ruth Lewis, Marjorie Waddle, Katherine May, Simms, Mary Nell Carter, Margaret Baern, Kathryn Cumbie, Alverne O'Steen, Nell Williams, Marie Kent, Daisy Dorothy Heard, Archie Chambers and June Crosby. For two-year students, Marjorie Lee Threlkeld, Dorothy Sparks, Martha Ann Singleton and Jackson Vineyard. For one-year students, Duleide Lee Compton, Lena Mae Robertson, Allene Thomas and Lorene Valentine.

Those making the honor roll for three-year students are:

Horace Jewell, Enola Alexander, Mary Della White, Evelyn Bryant, Lester Roberts, Arline Holly, Ruth Lewis, Marjorie Waddle, Katherine May, Simms, Mary Nell Carter, Margaret Baern, Kathryn Cumbie, Alverne O'Steen, Nell Williams, Marie Kent, Daisy Dorothy Heard, Archie Chambers and June Crosby. For two-year students, Marjorie Lee Threlkeld, Dorothy Sparks, Martha Ann Singleton and Jackson Vineyard. For one-year students, Duleide Lee Compton, Lena Mae Robertson, Allene Thomas and Lorene Valentine.

Kaplinger Leads
Rotarian Program

Five Club Members Appear on Luncheon Subjects Friday Noon

A Rotary inspirational program led by Kelsey Kaplinger and participated in by five other club members featured Friday's luncheon session of the organization at Hotel Barclay.

Frank Ward spoke on "Acquaintance"; the Rev. Fred H. Harrison on "Fellowship"; N. T. Jewell on "Cooperation"; the Rev. Thomas Brewster on "Higher Standards"; and Roy Anderson on "Service."

Terrill Cornelius urged club members to volunteer for committee service during the present campaign for the Boy Scouts to obtain \$750 for running expenses.

Guests Friday were: Dr. A. W. Hudson and Dr. A. S. Buchanan, both Prescott Rotarians; G. A. Trollope, poultry expert of the Missouri Pacific Lines; and Kinard Young, Hope Boy Scout.

U. D. C. Memorial
Service on Sunday

James William Ellis to
Speak at Rose Hill Cemetery at 3 p. m.

The local chapter of United Daughters of Confederacy will conduct a memorial service at 3 p. m. Sunday at Rose Hill cemetery.

The memorial address will be delivered by Attorney James William Ellis of Texarkana. Mrs. C. S. Lowthorp, president of the local chapter, will speak.

The Hope Boys band will play. The other members of the program will be announced Saturday.

A Sad Record for
Asylum Patients

Released Against Medical
Advice They Breed
Social Trouble

By HOWARD W. BLAKESLEE
PITTSBURGH, Pa.—(AP)—A record of human misery and cruelty seldom equalled, growing out of what happened to 102 young women with mental troubles who were released from detention by court order against medical advice, was reported to the American Psychiatric Association here Thursday by Leo Kanmer, M. D., of Baltimore.

The record covers 26 years. Already 102 he said had given birth to "108 children who are without question feeble minded." He gave documentary evidence in many of the cases. Most of the girls were released on writs of habeas corpus and all of them from the Rosewood School in Maryland.

Only 13, he said, have adjusted their lives in a manner which brought no serious damage to themselves or others. Eighty-nine have been in serious difficulties; 29 became prostitutes; six served prison terms; 17 acquired communicable diseases. Fifty-one married, producing 163 children. But 33 of these were born out of wedlock.

To anyone except medical men most of these girls could have passed as persons with little, if anything, wrong. Thus, Dr. Kanmer said, 53 of them were released to women who wanted cheap servants. Most of the women did not realize that they were dealing with mental incompetents. This resulted in most cases in the girls being "fired" without resources. The whole social picture of what happened to these girls is suggested by a detailed record of the types of husbands that 48 of them married.

"A study," said Dr. Kanmer, "of the husbands' backgrounds, personalities and behavior shows that not one of them can be considered as endowed with normal or near normal intelligence. Making every permissible allowance, we are ready to speak of 10 of the men as relatively stable and responsible individuals. All the others were shiftless unemployables."

Broadway Caravan
Due Here Monday

Hope Delegation to Meet
Highway Tourists at
Fulton Bridge

A motorecade carrying representatives from California, Arizona, New Mexico and Texas to the 10th annual Broadway of America convention at Memphis will be met by a delegation of local boosters at the Fulton bridge Monday morning and escorted to Hope, Gus Bernier, director at large, announced Friday.

The caravan is due to arrive in Hope at 8:30 a. m. The stay here will be brief. Weather permitting, the caravan will be received at Hope city hall by Mayor Albert Graves and the Hope Boys band.

Mr. Bernier appealed for a large delegation of local boosters to meet the motorecade at Fulton. He also asked that the motorecade be joined here and accompanied to Memphis.

Reservations to Memphis can be made by calling Mr. Bernier at telephone 100, Terrill Cornelius at 5, or W. M. Ramsey at 250.

The caravan left San Diego, Calif., Wednesday afternoon and is due to arrive in Texarkana at 6 p. m. Sunday for an overnight stop. The motorecade is due to leave Texarkana at 7:30 a. m. Monday and will arrive in Hope at 8:30.

Brief stops will be made on route to Memphis, the convention city. Headquarters will be at the Peabody hotel. The convention will be a two-day session, May 18 and 19.

In reviewing the history of the Broadway of America organization, Mr. Bernier said:

"Ten years ago a group of business men organized the Broadway of America Highway association to do two things: First, pave all unpaved sections from coast to coast; and second, advertise the route to the motoring public."

"Two years ago we announced to the world that the Broadway was the nation's first all paved transcontinental highway. Since then other East-West routes have been paved, which have diverted some of our summer traffic northern routes."

"We must support the Broadway organization. By showing our appreciation for tourist trade we can have a large delegation of local business men meet the caravan when it comes to our city Monday morning," Mr. Bernier said.

Eckener Sees Ruins
of Ship He Built

German Constructor Views Hindenburg at
Lakehurst Station

LAKEHURST, N. J.—(AP)—His face a mask, the old master of zeppelins, Dr. Hugo Eckener, saw for the first time Friday the giant ruins of his flagship, the Hindenburg.

He had no words to speak as he surveyed the almost shapeless remains of the great dirigible on the sandy Naval air station landing field. His escorts reported.

"What would you do if—"
You were addressing a business letter to a college professor who has a Ph. D. degree? Address him—
(a) "Dr. A. B. Holmes, Ph. D."?
(b) "Professor A. B. Holmes, Ph. D."?
(c) "Dr. A. B. Holmes"?
Answers

1. No. It is considered unduly familiar.
2. Common.
3. No.
4. Yes.
5. Yes. Equally correct to use punctuation.

COTTON
NEW ORLEANS.—(AP)—July cotton opened Friday at 12.49 and closed at 12.53.
Spot cotton closed quiet seven points up, middling 12.98.

Merrill, Lambie
Safe in Boston on
Return Air Voyage

Drop in on Boston, Keep
Motors Turning for
New York Hop

MAKE A ROUNDTRIP

Americans Aviators Fly to
British Coronation and
Back Again

BOSTON, Mass.—(AP)—Finding a "hole" in the clouds after spanning the Atlantic on their return flight from London, Dick Merrill and Jack Lambie Friday brought their plane down at the Naval air base at Spangum, near Boston.

Merrill kept his motors warm after landing and prepared for an almost immediate takeoff, with Floyd Bennett Field, New York, his final destination.

Naval officers at the base timed the pilot at 2:40 p. m. daylight time (12:40 p. m. Hope time) on his landing.

The pair took off from Southport, England, at 4:13 p. m. daylight time Thursday.

They Leave London

SOUTHPORT, Eng.—(AP)—Henry T. (Dick) Merrill and John S. (Jack) Lambie sped toward the United States Wednesday night in their twin-engine monoplane, hoping to complete their transatlantic roundtrip in New York early Friday afternoon.

While 10,000 persons cheered on the Southport sands, the plane roared along the beach, climbed into the air and disappeared over the Irish sea.

They were reported by wireless they were 800 miles off the coast of Ireland. Although the sun had been shining from cloudless skies before dark at Southport, Merrill, who had made three previous Atlantic air crossings within a year, appeared disturbed by weather reports.

"We're likely to encounter head winds all the way," he said before the takeoff. "It probably will take us 21 hours or so to get to New York. We've put a full load of 1,300 gallons of gasoline into the machine."

Merrill and Lambie carried news photographs of coronation scenes. When they flew to England they brought pictures of the Hindenburg disaster.

Both looked tired as they waved goodbye to crowds lining the beach. The heavily-laden machine rose without difficulty after a half-mile run along the sands.

Negro Slayer Put
to Death Friday

James Austin, Jr., Dies for
Murder of Hot Springs
Policeman

TUCKER PRISON FARM, Ark.—(AP)—James Austin, Jr., 22, negro, was executed at 5:05 p. m. Friday for the killing of John McTigitt, 55, merchant policeman, at Hot Springs last August.

He offered no resistance as two wardens assisted him to the state's electric chair.

Two charges of electricity were applied before prison physicians pronounced him dead.

MIND Your
MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should one use "Dear Friend" as a salutation in a business letter?
2. What is the accepted form of punctuation after the salutation in a personal letter?
3. Is "Messrs." used much today in addressing a group of professional men, such as a law firm?

4. If the addressee is very well known, is it still necessary to give his full address on a business letter?
5. Is it correct to omit all end punctuation in the lines of an address such as—
Mr. Robert Houston, President
Brown Cutlery Company
Akron, Ohio

What would you do if—
You were addressing a business letter to a college professor who has a Ph. D. degree? Address him—
(a) "Dr. A. B. Holmes, Ph. D."?
(b) "Professor A. B. Holmes, Ph. D."?
(c) "Dr. A. B. Holmes"?
Answers

1. No. It is considered unduly familiar.
2. Common.
3. No.
4. Yes.
5. Yes. Equally correct to use punctuation.

Boy Scout Fund Is
Pushed Up to \$256;
Local Goal Is \$750

Second of Five Committees
Reports Gifts Friday
day of \$112.50

TO CONTINUE WEEK

Maintenance of One Boy
Scout for Year Approximately \$6.25

The second of five committees canvassing the downtown district for funds to maintain Boy Scout work in Hempstead county reported a tabulation of \$112.50 Friday.

The new report brings the total fund to \$256.25. The goal is \$750.

T. S. Cornelius, finance chairman, said the drive would continue through next week. Mr. Cornelius said that merchants, business and professional men were canvassed on the idea of contributing the amount necessary to maintain one, two or more Boy Scouts for a single year.

Maintenance funds for one boy is \$6.25 for a single year.

The second report was made by a committee of three, the Rev. Fred R. Harrison, P. H. Dulin, Jr., and Mr. Caninger.

Previously reported

Ritchie Grocer Co.	\$143.75
Nick Jewell	12.50
Duffie Hardware Co.	6.25

Total	\$256.25

Spa Police Quickly
Acquitted by Jury

But None of Accused Former Officers Are to
Be Re-Hired

HOT SPRINGS, Ark.—A jury in circuit court quickly acquitted seven former members of Hot Springs Police Department late Thursday. They were accused of second degree murder as the result of the death of a prisoner, John Dickson, on Christmas eve.

The seven acquitted were: Capt. Arch Cooper, Capt. R. L. Moore, Lieut. Cecil Brock, Detectives Glenn Buchanan and Patrolmen Andy Irwin, Joe Scott and Fred Griffith.

The jury was out two hours and five minutes, it was reported that little time was spent in reaching a verdict.

The acquittal verdict had been generally anticipated.

John R. Thompson, Little Rock assistant city attorney, whose services had been enlisted by relatives of Dickson, made the opening address to the jury Thursday morning. He acted as attorney for the legislative committee that investigated charges that law enforcement in Hot Springs had broken down.

He paid tribute to Prosecuting Attorney Gibson Witt Jr., and Deputy Prosecutor Curtis Ridgeway, saying that he never had seen a more sincere effort to secure a conviction. Evidently this was in reply to charges that Thompson had been induced to enter the case because of charges that Witt and Ridgeway are under the domination of Mayor Leo P. McLaughlin.

Mayor McLaughlin said that none of the acquitted men would be restored to duty with the police department.

Steel Strike Ends;
27,000 Regain Jobs

Temporary Pact Made Until
Labor Board Can
Hold an Election

PITTSBURGH, Pa.—(AP)—Settlement of the strike of 27,000 Jones & Laughlin Steel corporation workers was announced Friday by Chairman Phil Murray of the steel workers' organization committee.

Murray said a temporary agreement had been reached under which operations would be resumed at the company's plants almost immediately.

The terms of the agreement will govern relations between the union and the company until next week, when the National Labor Relations Board will conduct an employees' election, the union leader said.

Without its long hind claws, the skylark would sink helplessly into the tall grass in which it makes its home.

Turned Brown
By Brown Turner

DALLAS, Texas.—Latest reports from Spain, sandwiched in between a story about the coronation of King George VI and a two-headed calf in Iowa, are they're still fighting, but it's a pretty safe bet that if anybody's making a profit out of that war it's not the Spaniards. They're in about the same fix as a guy who owes for his automobile, wrecks it and breaks his leg on the side. A lot of people are going to get it, one way or another, but it seems the price of whisky is as high as it was before it was legal, but there's not so much of it.

Windsor's Bride
Gets Royal Rank

Wallis Warfield to Be
Eighth Lady of Realm
of Great Britain

LONDON, Eng.—(AP)—The future ranking of Wallis Warfield as Duchess of Windsor has been definitely fixed, informed persons disclosed Friday night (British time), by changing the duke's Order of the Garter banner to a position behind that of his three younger brothers.

That, it was stated with seeming authority, would make the future Duchess of Windsor the eighth lady of the realm.

8 Killed as Mine
Hits British Ship

English Will Make Sharp
Protest Against Spanish
Incident

By the Associated Press
The British admiralty launched an investigation Friday at Almeria, Spain, to determine responsibility for an explosion that rocked the destroyer Hunter Thursday, killing eight and injuring 14 of her crew.

British naval authorities believed a floating mine caused the disaster to the destroyer.

Stern protests were expected.

British Ships Damaged
VALENCIA, Spain.—(AP)—Three sailors were known dead, four were missing and more than a score injured aboard the British destroyer Hunter late Thursday off the South Spanish coast when, Spanish coast when, Spanish sources said, the vessel either struck a mine or was torpedoed.

The vessel was disabled by an explosion as she cruised four or five miles off the Mediterranean port of Almeria. The ministry of Marine, announcing the launching of an investigation Friday, gave no cause for the disaster but Febus, official Spanish government news agency, asserted:

"Two versions circulate in Almeria. The less authorized is that the vessel struck a mine while patrolling the coast. The most consistent account says the disaster was caused by a torpedo, launched by a German submarine."

Supporting the latter theory, the agency said, was the fact the Hunter's bow showed gaping holes on both port and starboard, indicating a missile passed through the vessel.

Witnesses said the destroyer took water rapidly but was towed ashore by the Spanish government battleship Jaime I after the survivors reached land aboard lifeboats and rescue vessels.

Witnesses on the shore said they heard the explosion. Rescue craft, including lifeboats from the Jaime I rushed to the scene. The British destroyer Hyperion arrived off Almeria several hours later while the cruiser Arethusa set out from Barcelona.

On Patrol
The Hunter was on patrol duty for the European "Hands-Off Spain" Committee, supervising the ban on arms and foreign volunteers to the Spanish civil war. Officers gave no further details but some witnesses said they were certain the vessel encountered a submarine torpedo rather than a mine.

The Hunter had a complement of 145 men.

The British destroyer Hardy steamed from Gibraltar, 160 miles from Almeria, for the scene. Almeria is the nearest port to Gibraltar held by the Spanish government. Spanish insurgents hold the coast from Gibraltar through Malaga to a point roughly halfway between Malaga and Almeria.

Fish Fry Is Held by
The Presbyterian Men

The Presbyterian Men of the Church held a fish fry Tuesday night at Fair park. Approximately 30 attended. There was no formal program.

The committee in charge was C. C. Lewis and L. Carter Johnson. John Guthrie is president of the group.

Six days after coming from the egg, a honey bee is 1500 times as heavy as when it emerged.

Utility Company
Is 'Choking' Brick
Industry, He Says

Gas Firm Contends CIO
Unionization Drive Has
Raised Costs

AFFECTS 3 PLANTS

O'Neal Reminds Gas Com-
pany Rate Was 10 Cents
Back in 1910

LITTLE ROCK.—(AP)—N. P. O'Neal, owner of Hope Brick company, charged before the State Utility Commission Friday that the Arkansas Louisiana Gas company was "choking the brick industry to death with high gas rates."

He appeared at a hearing to protest the application of the utility for authority to increase its rates to the Hope firm and two Malvern brick companies approximately seven-tenths of a cent per thousand cubic feet.

Two at Malvern
The Malvern companies involved are, Malvern Brick & Tile Co. and Acme Brick company. Vice-President C. G. Bryan represented the former firm at the hearing.

Denying O'Neal's charges, J. C. Hamilton, of Shreveport, rate and valuation engineer for the utility, said its operating costs had been increased by the unionization drive staged by the Committee for Industrial Organization (CIO) in the north Louisiana gas fields.

"The CIO has organized everything in sight," he told the commission. "This has increased overhead costs."

"We do not think our rates are unreasonable. They are not above the costs of service. We treated industrial consumers very decently during the depression and warned them an increase would be necessary when conditions changed. That time has come. Our operating costs have gone up with the come-back of business. We have no intention of putting rates up where they can't do business."

Hamilton said the average rate for furnishing gas to the Hope plant under the old schedule was 16.2 cents per thousand cubic feet. The new schedule proposed an increase to 16.9 cents.

The Malvern rates would be increased from 16.5 to 17.24.

When Hamilton commented "we have materially reduced gas rates since 1931," O'Neal interrupted to say:

"Go back to 1910, Mr. Hamilton. We bought gas for 10 cents."

Hamilton did not reply.

One State Can't Profit at Expense of Others

ONE reason why it is an advantage to have our republic split
 up into 48 states is that individual states can make experi-
 ments in government which the nation as a whole could
 hardly dare to make.

Nebraska, for instance, can test out the one-house legis-
 lature, and Massachusetts can experiment with savings bank
 insurance, and the rest of the country has a chance to see how
 these experiments work in actual practice.

Now it happens that some of the most instructive ex-
 periments of all are laws that never actually get passed. The
 legislators of a sovereign state occasionally get a brain-storm
 and bring in a bill that is simply fantastic. The bill may die,
 but the discussion it provokes and the prospects it opens can
 do all the other states a great deal of good.

X X X

FLORIDA seems to be engaging in that kind of experiment
 right now, with a "state recovery act" which one candid
 Florida editor promptly rechristened "the Florida ruination
 bill."

This bill sets out to bar chain stores, but it goes several
 miles beyond the limit which binds most opponents of chain
 stores. It would not only prevent any retail merchant from
 operating more than one store anywhere in the state; it would
 bar the operation of any retail establishment whose common
 stock was not wholly owned by permanent residents of
 Florida.

This bill would wipe out chain stores all right, and do
 the job thoroughly enough to suit the most rabid of individ-
 ualists. It would also drive some millions of dollars of "out-
 side capital" straight out of Florida, put out of business some
 thriving concerns—which buy Florida materials, hire consid-
 erable numbers of Florida citizens, and pay substantial
 taxes to the Florida exchequer—and provoke some of the
 leading buyers of typical Florida products, such as citrus
 fruits, to do their buying in some other state.

Considering the earnest way in which Florida bids for
 outside capital, it is extremely doubtful that this bill will ever
 become a law. But the mere fact that it is being considered
 is instructive.

A good many of us often forget that all the states in the
 union hang together economically. We get the idea that if we
 can just "keep money in the state" we shall prosper; we delude
 ourselves into thinking that we can in some way boost our
 state's prosperity at the expense of other states.

X X X

THAT line of thought leads directly to a bill such as this one
 proposed in Florida. If that sort of economics is sound,
 then the Florida bill is perfectly logical. And the next step
 after that would be to put up state tariff walls and insist that
 "foreigners" from the next state have passports when they
 come to visit.

This country grew great and rich because its economy
 is not bound by any state law. The fantastic Florida pro-
 posal is a good example of the mess we could get into by for-
 getting that basic fact.

Nothing to Worry About

THE British admiralty has awarded contracts for the build-
 ing of three new battleships of 35,000 tons each. Since two
 other battleships have already been begun, this will give
 the British fleet five ultra-modern battleships by 1940—more
 than any other fleet on earth will then possess.

This bit of news undoubtedly will lead American jingoes
 to demand that we immediately expand our own battleship
 program. We are now about to start construction of two—
 but the British are building five! If we don't watch out, the
 British battle fleet will in a few years be stronger than ours.

To all of which the ordinary citizen might properly
 reply—what of it? It is very hard to figure out any set of
 circumstances under which we might be fighting England,
 and it is even harder to figure that such a war would be any-
 thing but a complete disaster, no matter who won it. That be-
 ing the case, we can very well look on the British battleship
 program with unruffled calm.

The Family Doctor

 Hygiene, the Health Magazine.

Infection of Heart Valves Holds Great Threat in Endocarditic Cases

(No. 213)
 Endocarditis affects particularly the lining of the interior of the heart, and also the valves. When the valves are infected, they become encrusted with material which represents a response of the body to the attack. These encrustations, however, interfere with the action of the valves, so that many symptoms appear.

The heart, remember, is a muscular organ through which blood passes after it comes from the lungs, and from which it is pumped into the blood vessels.

As the blood passes from one of the four compartments of the heart into another, it goes through valves which open and shut regularly so that the movement of the blood is forward.

If, however, one of these valves should change in form because of disease or for any other reason, it will not close completely. The blood then will gurgle back into the chamber from which it came exactly as water from a leak back into the chamber from which it came exactly as water will leak back through a deficient valve. If, through his stethoscope, the doctor hears a murmur, he knows that the blood is gurgling back in this fashion.

The symptoms of endocarditis may at first be very mild. The victim may feel only fatigue on slight effort, weakness, or digestive effort, weakness, or digestive disturbances. Naturally his lack of appetite and fatigue lead to loss of weight and strength.

He is likely to appear pale and frequently develops anemia simply because of his disordered method of living and the continuous fever.

Endocarditis victims invariably have fever although sometimes in the morning it may be absent and sometimes may represent a rise in temperature of only a fraction of a degree.

Because the victim's heart has trouble circulating the blood, his pulse rate is faster than normal.

As the disease goes on, its effects become apparent from changes in the body. The ends of the fingers may become clubbed, the spleen enlarged, and tiny spots of blood appear on the surface of various parts of the body.

A most serious condition develops if a piece of one of the crusts on the

hears a murmur, he knows that the blood is gurgling back in this fashion.

The symptoms of endocarditis may at first be very mild. The victim may feel only fatigue on slight effort, weakness, or digestive effort, weakness, or digestive disturbances. Naturally his lack of appetite and fatigue lead to loss of weight and strength.

He is likely to appear pale and frequently develops anemia simply because of his disordered method of living and the continuous fever.

We, the People

We are the makers. We have wrought the destinies of child and man. Since ever mind shaped out its thought, Or word or work began. We are the host whose brain and hand Set greed and profit up on thrones; Ours is the labor, ours the land, And ours the bread and bones. We are the herds who daily crowd The narrow down; who tread the day With patient power, to silence vowed, And to the wider way. We are the people, common, cool; The handiwork of pride and pain; We shall not play the pampered fool Nor strike the flint again. We are the masters. Ours to will The stern high purpose of the State, We are the market and the mill, Fashioned of love and hate. Now, therefore, we, the people, swear This day by the good Grace of God, Peace—for the earth, and sea, and air, And plenty from the sod.—Selected.

The Forbearance of Isaac

Text: Genesis 26:12-25

As men and women have read the Bible in former days, the tendency has been to think of it as a book of the past. A lesson such as this one about Isaac was considered simply a story about a man who lived long ago and at some place in the early life of the Jewish people. But the records of such lives originally were written by holy men, who intended them for instruction and guidance, and we derive the teachings of a lesson of this kind only as we apply it in some way to our own times.

Isaac was a farmer who had good crops, great flocks and herds. He was what we would call a man of great prosperity, and a man who had a large household and following of people. The neighboring Philistines envied him, and they wished him to go away because they feared his strength and his competition.

Isaac showed a rather sensible and forbearing spirit, a spirit that might well be manifested more frequently by wealth and power. He accepted the suggestion of the Philistines that he leave, and he established himself in another valley. Here, we are told, he dug again the wells of water which had been dug in the days of Abraham, his father.

There is here an instructive and suggestive statement that throws considerable light upon the narrative. We are told that the Philistines had stopped these wells; just why, it is not stated. Possibly they had done so as a hostile act against the Jewish immigrants. One might reflect that if the Philistines had been more concerned about opening wells than about stopping them, they might have had more of the prosperity that they envied and feared in Isaac.

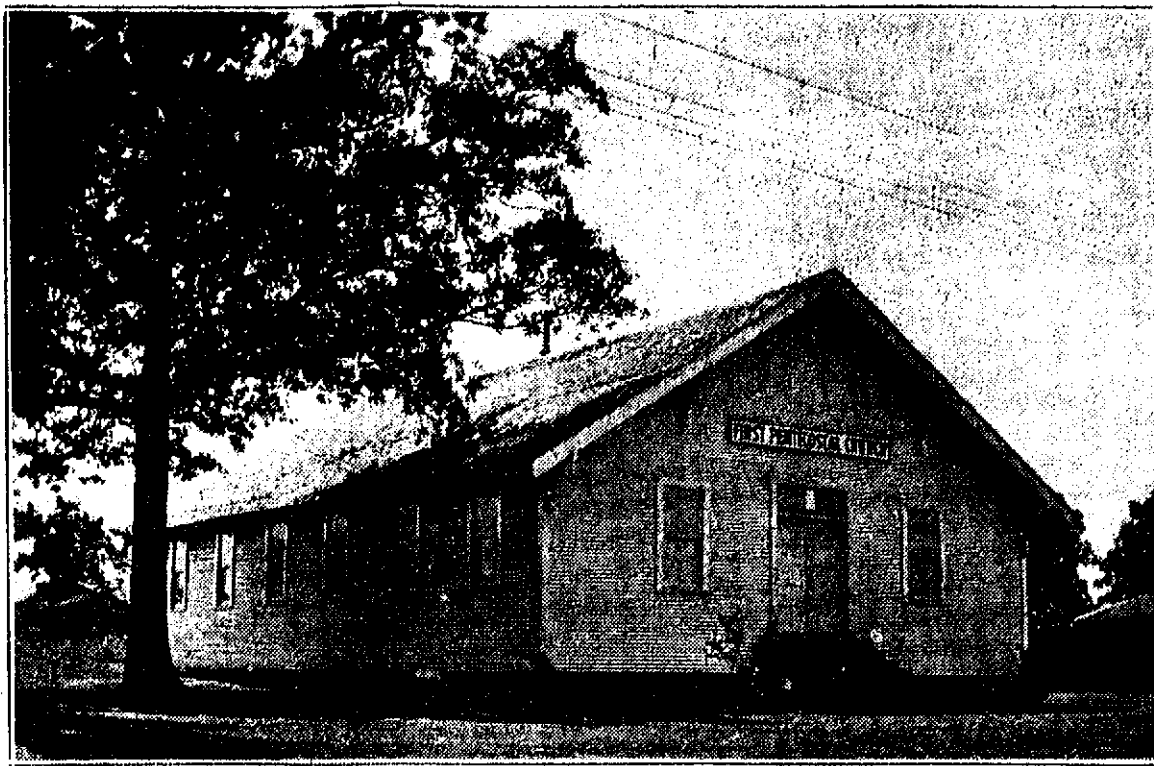

Isaac's removal to the valley of Gerar, however, did not bring him peace. When the wells were opened, the herdsmen of Gerar closed them, and there was strife about a well which Isaac's servants had found. Isaac's servants had found, Isaac still was resourceful, and apparently peacefully disposed. He dug another well, and there was a fight about that also.

But the next well that he dug caused no strife, and he called it "Rehoboth." His justification of the name is interesting. "Jehovah hath made room for us, and we shall be fruitful in the land."

After all, in spite of all the strife about pastures and wells, and the conflict of groups throughout the ages, one may well consider how much room there really is in the universe, and how much the earth can produce for all, if men would really attempt to realize how much room God has made, and how bountifully he has established the fruitfulness of nature.

If men everywhere and at every time had been more concerned with digging wells and keeping them open, than about fighting for control of them and stopping them up, what a different world this would be! And "wells" in this connection applies to more than just springs of water.

To Dedicate First Pentecostal Church, Fourth and Ferguson Streets, on Sunday

—Photo by Hope Star.

The dedication of First Pentecostal Church, West Fourth and Ferguson streets, will take place Sunday, May 16. Though the church is yet in its infancy, it has made remarkable progress toward upbuilding.

Organized six years ago with Mrs. Lucille White as pastor, the growth of the church has been steady. Following Mrs. White, the Rev. W. R. Pair became pastor and it was under his supervision that the church building was started. Rev. Pair served the congregation for a period of two years, resigning to accept the pastorate of the Pentecostal Church of Lodi, California, of which he is now pastor.

The Rev. Cleve Kerley of Little Rock was the church's next pastor. For five months Rev. Kerley had charge of the work. He resigned last August to take up his ministry in the evangelistic field. Until November last year the church was without a pastor, however, the services continued under the direction of the church board and remained intact.

Miss Danita Barnum of Shreveport, La., accepted the pastorate at that time and is now acting in that capacity. The interior of the church, incomplete at her coming, has since been finished and the indebtedness cleared. Sunday's dedication services will be in charge of the Rev. G. H. Brown, general presbyter of the Pentecostal Church of Little Rock, Ark. Ministers from the various sections of the Louisiana and Arkansas church districts will be present.

The dedicatory sermon will be delivered at the 11 o'clock hour of worship by Rev. Dan Hayes of Eunice, La. The Rev. Mr. Hayes is one of the oldest active ministers in the Pentecostal ranks, having spent 41 years on

the public platform. He is also the General Sunday School Superintendent of the Pentecostal church. His ministry has endeared him to the general laity of the church during his many years of extensive travel. The Hope church feels privileged in being able to have a minister of such spiritual depth and Christian character to address them on this occasion.

Baptismal services will be held at 2:45 p. m. at Dulin's Lake about one and a half miles from Hope. A number of candidates have been awaiting this day's services and will receive the ordinance of baptism. Special evangelistic services begin at the evening hour, 7:30 p. m., with the Rev. Mr. and Mrs. R. M. Hungerford of Chicago, Ill., in charge. The public is invited to attend the services each evening of the week. Both Rev. and Mrs. Hungerford are ministers of the gospel, talented singers and musicians. They come to Hope from recent campaigns in Shreveport and Houston. Their ministry both of the Word of God and in song are to be appreciated.

The church feels sure that much of its success may be credited to the cooperation of the citizenry of Hope, both individual and the various business firms. The membership expresses their sincere appreciation for all these things to all who have made their contributions of good-will and support in their religious endeavor.

Growing Wind

By Helen Welshimer

A GROWING wind is on the land tonight; That wind pulses gently through tired fields That have been dormant since the rendering Of soil-blood taken by the harvest yields. A growing wind—blow strong, and stronger still! Until all hate, all avarice and greed That festered in the winter's narrowed days Shall end in joy, dear God, for this I plead!

O H, if the soil can feel, I think it wakes On such a night, remembering the way The grain laid yellow rugs across its breast And crops grew tall in some warm yesterday. Now, deep within, the life-urge beats again For sun, for wind, for rain, for all things bright. My heart, forget the winter's monotone— A growing wind sings in the fields tonight!

AT THE THEATERS

At the Saenger

With what one might call 11th hour instructions from the Home Office (Headquarters) came orders that on Saturday night at 11 o'clock the Saenger theatre would show for one show only, one of Hollywood's newest pieces of screen entertainment, and that is, namely Fred Astaire and Ginger Rogers, long Hope's favorite dancing couple, in their latest and what is termed by the New York critics, their best screen effort, "Shall We Dance."

This, Manager Swanke announces, is West Arkansas' first showing of this favorite team's latest picture and it will be shown Saturday night at 11 o'clock preview only. As has been announced in the ads, Walter Winchell and Ben Bernie, long known enemies of the Radio who will be the Sunday and Monday attraction in "Wake Up & Live" and the Astaire-Rogers picture, "Shall We Dance" will not follow as has been the custom, but will possibly follow from two to three weeks later.

"Shall We Dance" will start promptly at 11 or a few minutes after the regular Saturday night big double program, that the Manager announces is getting bigger and better every week. Rogers and Astaire so well known to the Hope fans should prove mighty fine screen entertainment, in this newest screen fare at the Saenger 11 o'clock Saturday night preview.

In Good Voice

A brakeman arrived before the heavenly gates and found that things aloft were as fine as he had been led to believe. One of the receiving angels took him in charge and asked if there was anything in particular he wanted.

"Yes, I always did like choir music," said the brakeman, "Get me ten thousand soprano singers!"

"An unusual request," commented the angel, "but you shall have them."

—anything else?"
"Ten thousand alto singers," ordered the brakeman—"and that'll be all for the present."
"Well—or—how about the bass?" inquired the angel.
"I'll sing bass."

The various phases of the moon are due to the relative position of the earth, moon and sun.

Recipe for Refreshment

FOR real refreshment reach for a "Steinie" Brown Bottle of Schlitz Beer. Brewed to mellow-ripe perfection under Precise Enzyme Control... with added health benefits of Sunshine Vitamin D... Schlitz brings you winter and summer uniform deliciousness.

You don't have to cultivate a taste for Schlitz. You like it on first acquaintance... and ever after.

The BEER That Made Milwaukee Famous

SEND IT TO NELSON-HUCKINS

WHAT YOU SAY GOES— if you say BUICK!

THIS year, good things come in eights T—get into this bellwether Buick and the other fellow will know who's lead-off man in your neck of the woods!

You're boss of the bunch when you ease in gas to the great valve-in-head straight eight, ablest engine of its size anywhere in the world. It's soft of voice but it packs authority—there isn't any fooling when it has work to do!

You're the envy of all eyes, garbed in Buick's princely style—handling these ready controls is the softest job in the whole wide world.

You stream down the straightaway—soar over the tallest hills—you sweep around the corners and curves erect as a dowager making her entrance—why even the back seat's chatterproof, so sweetly, smoothly, serenely does this road-wise car conduct itself!

You can't hurt it—it's built rugged and stout as Buick always has been—but still we say, handle with care! For so instant-quick is its lift to your toe-touch, so quietly easy will it outwing the birds, that you never have to force it to make your distance safely with time to spare.

This year say Buick—and whatever you say on the open road will go with the whole parade. Its purchase is as easily managed as its feather-light controls—for today Buick is priced at the lowest figure in history.

Your cue now is to see us. Do that without delay and you'll hold the center of the stage all summer long!

LOWEST PRICES EVER ON A BUICK 4-DOOR SEDAN!

Stamp News

BY I. S. KLEIN

AMELIA EARHART is getting ready to make her second attempt at a round-the-world flight, and may leave San Francisco in about two weeks. This time she will take additional covers, to be postmarked and cacheted in a way that will distinguish them from the earlier covers left at Honolulu.

Arriving in Hawaii, she will pick up the first covers—about 6500—for the rest of the flight. These covers will get an additional cachet showing the reason for the delay and the date of the crash.

Japan will make its first important change in postage stamp design since 1913. Government officials are conferring with art leaders on proposed subjects. Since there are 23 kinds of stamps to be changed, the entire job will take a year or more to complete. First of the new stamps, however, may be expected soon.

Panama is issuing a series of stamps in honor of its first volunteer fire department. It will commemorate the 50th anniversary of this force with five regular and three airmail stamps.

Completion of the 1000-mile military road across Libya is the occasion of a new set of four stamps issued by Italy for that African colony. (Copyright, 1937, NEA Service, Inc.)

WRECKING RECORD

Bill Sefton of Southern California soars to a new height of 14 feet 8 1/2 inches in the pole vault as the Trojans repel Stanford.

DeQueen to Oppose Lumberjacks Here

Sefton, Meadows Set Vault Record

2 Southern California Aerialists Scale Bar at 14 Feet 8 1/2 Inches

By HARRY GRAVSON
Sports Editor, NEA Service
Bill Sefton and Earle Meadows, amazing Southern California aerialists, furnish additional evidence of an ultimate 15-foot ceiling in the pole vault by tying at a new world record—14 feet 8 1/2 inches.

It was only three weeks before that the blond Sefton hoisted himself over a crossbar set at 14 feet 7 1/2 to erase George Varoff's mark of 14 feet 6 1/2 inches. Sefton actually cleared the height by a good six inches, which put him within a fraction of an inch of what Al McGill, former Yale coach, has set as the absolute limit. Dean B. Cromwell, Southern California coach, and Alfred C. Gilbert, one of Yale's early vaulting stars, doubt that anyone ever will exceed 15 feet or a fraction above. Regardless of the physical capabilities of the athlete, the mechanical element also must be considered. It is a physical impossibility to swing the body over a height greater than three and a half feet above the point where the pole is gripped. Few can take an effective grip on the pole more than 12 feet 6 inches from the end.

The slot in which the pole is planted on the take-off is 8 inches deep. So Al McGill subtracts that depth from the height of the grip and gets 11 feet 8 inches. He adds three and a half feet to that figure and suspects that he has the mechanical limit beyond which nobody can vault.

No Vaulter Has Had Perfect Form

Lengthening the pole wouldn't help. That would tend only to make it more unwieldy and harder to handle.

Poles differ in weight, with the newer aluminum construction gaining favor rapidly.

The Japanese have made exceptionally fine progress with exceedingly light poles.

Styles also will continue to vary, but one will be as good as another as long as form is maintained, assert authorities.

Form is absolutely necessary. The athlete must have perfect coordination, timing, and muscular development. So far, no vaulter has been credited with perfect form. The first one with perfect form will be the first to do 15 feet, predicts McGill, who describes the perfect vaulter as being tall, a good sprinter, and an excellent gymnast. The Japanese appear to disprove the first two qualities, but make up for their lack of height and speed with remarkable gymnastic and muscular development.

Sefton and Meadows are tall. They are first-rate sprinters with powerfully built shoulders and arms.

Pole vaulting was introduced from Scotland in 1868. The participants had little or no form in the early days. J. W. Pryor of Columbia set a mark of 7 feet 4 inches in 1877. H. H. Baxter was first to better 11 feet in 1883, and Robert Gardner of Yale the first to do 12 feet or better in 1912.

The world really did not become pole vault conscious until 1927, however, when the invasion of Charley Hoff of Norway and the achievements of Sabin Carr of Yale placed the spectacular specialty in a prominent position in the public eye.

The Boys Will Continue

Hoff was one of the first of the so-called modern vaulters, consistently doing 13 feet or better.

Carr was the first to clear 14 feet in 1927.

Yale is renowned for a long line of vaulters, with Carr the standout in 1926-7-8 and Keith Brown tops in 1933-4.

Lofty lads of the Pacific coast started to steal the show from eastern climbers in 1928, with Lee Barnes of Southern California launching the attack with 14 feet 1 1/2 inches.

Barnes and two other Trojans, Bill

HEMP HOLD

A referee works overtime to untangle Pat Meehan, who appears to be suffering from a rope strangle in a San Francisco exhibition. "The Red Phantom" jammed the hapless Mr. Meehan's noggin in there. In wrestling, the show's the thing, even at the risk of necks.

Henderson Grid Card Completed

Reddies Will Meet State Teachers College on Thanksgiving

ARKADELPHIA—Henderson State College will meet State Teachers College in football here Thanksgiving Day, Coach S. B. Sudduth said Thursday.

Arkansas Tech was to have been the Turkey Day opponent, but in a four-way shift of football games, following the suspension of football relations between Teachers and Hendrix, Henderson drew the state champion Teachers for the final game of the season.

Tech will be played here October 8. Eight games have been arranged and two open dates are available for a ninth. The schedule follows:

September 24, Magnolia A. and M. there.

October 1, Texarkana College here.

October 8, Arkansas Tech, here.

October 15, Arkansas A. and M. here.

October 22, open.

October 29, Hendrix College, Conway.

November 5, Delta State Vicksburg, Miss.

November 12, L. S. U. Northeast Center (place undecided).

November 19, open.

November 25, Arkansas State Teachers here.

Miller and Bill Graber, explored the stratosphere until Graber established the world record at 14 feet 4 1/2 inches in the 1932 Olympic trials.

The coast luminaries, Sattled Keith Brown for supremacy, but no one threatened 15 feet or even 14 1/2 feet. Graber's mark came to be regarded as the maximum by all except a few who made startling predictions.

It was not until last summer that George Varoff, Oregon freshman, gave the first inkling that a 15-foot vault might be in the offing by clearing 11 feet 6 1/2 inches in the National A. A. U. meet, which was a prelude to the Olympic trials.

There undoubtedly is a mechanical limit. Even Sefton and Meadows can't overcome the laws of physics.

But extensive study, improved training, and stiffer competition are bound to continue to have an effect on the pole vaulting as well as all other records.

Travelers Held to 4 Hits, Lose

Resume Series With Chattanooga Friday Night With Doubleheader

LITTLE ROCK—(AP)—Chattanooga's Lookouts converted eight hits into a 7 to 1 victory over the Little Rock Travelers here Thursday night in the first of a three-game series. Barnes limited the locals to four scattered blows, striking out six.

The clubs are scheduled to play a double-header Friday night starting at 7:30. Jennings (Jinx) Pindexter is slated to pitch the first for the Travelers. He will be opposed by Frank Pettitolas, Managers. Prothro and Clyde Milan of the Travelers and the Lookouts were undecided as to whom their second game choice would be.

Score by innings:
Chattanooga..... 112 303 000—7 8 1
Little Rock..... 000 100 000—1 4 2
Barnes and Holbrook, Sharpe, Sheetz, and Coble.

Pinch Single Wins

MEMPHIS, Tenn.—(AP)—Old Andrew Jackson Reese, the Chicks' durable first baseman, banged a tenth-inning single to center field Thursday to score Dixie Howell and give the Tribe a 3 to 2 victory over the Atlanta Crackers.

Score by innings:
Memphis..... 000 010 001—3 11 0
Atlanta..... 000 002 000—2 7 1
Maltzberger, West and Richards; Doyle, Spencer and Healey.

All-Star Team Is Named by Wagner

Former Pirate Star Confines Selection to the National Loop

NEW YORK—(AP)—Hans Wagner, veteran of 17 years of service with the Pittsburgh Pirates, selects three Pittsburgh players and three from New York in an all-time all-star team selected for Collier's Weekly.

Wagner confined himself to players in the National League, explaining he didn't know much about the younger circuit.

His selections:

Pitchers—Christy Mathewson, New York; Grover Cleveland Alexander, Phillies; Rube Waddell, Philadelphia Athletics.

Catchers—Roger Bresnahan, New York; Johnny Kling, Chicago Cubs.

First base—Bill Terry, New York.

Second base—Rogers Hornsby, St. Louis.

Shortstop—Joe Tinker, Chicago.

Third base—Pie Traynor, Pittsburgh.

Left field—Fred Clarke, Pittsburgh.

Center field—Clarence Beaumont, Pittsburgh.

Right field—Willie Keeler, Baltimore Orioles.

As pinch hitters, Wagner picked Moose McCormick and Sammy Strong of the Giants and Han Ryan of Pittsburgh.

Yankees Snap Out of Losing Streak

Defeat St. Louis Browns 4 to 2 With 12-Hit Attack

ST. LOUIS—(AP)—A revamped batting order, with Lou Gehrig out of the cleanup spot for the first time since 1935, injected some of the 1936 pounding punch back into the New York Yankees Thursday and they trounced the Browns 4 to 2 with a 12-hit attack.

In Gehrig's No. 4 slot, Manager Joe McCarthy inserted Joe DiMaggio, dropped from third place, and the shift

Game Called 3:30, Fair Park Sunday

Elliott or Boswell to Hurl for Hope, Manager Coop Announces

The Williams Lumber company baseball team, with two victories and two losses since opening of the season, will play its fifth game here Sunday against DeQueen. Play will start at 3:30 o'clock.

Manager Lloyd Coop said Friday that either Hubert (Blackie) Elliott or Cecil Boswell, tall righthander from Willisville, would start on the mound.

Change in Lineup

Carroll Schooley, who plays any position on the team, has been switched to left field, replacing Johnny Allen. Pete Brown will start the game behind the bat, replacing the veteran Johnny Sparks.

The switch from Sparks to Brown is being done to give Brown some experience. Sparks, however, is expected to get into the game after the first few innings.

The balance of the lineup remains intact, with Robins at first, V. Schooley at second, W. Cook at shortstop, C. Ramsey at third, C. Schooley in the left field, J. Cook in center field and Rogers in right field.

The lineup of the DeQueen team, managed by Bill Phillips, was not available.

To Meet Texas Champs

Next Friday the Lumberjacks will meet the Texas State Champion semipro club of Mt. Pleasant at Fair Park. The Mt. Pleasant team, through Sports Editor Frank Buckley of the Mt. Pleasant Daily News, challenged the Hope team to a game in a telegram received here this week.

Manager Lloyd Coop accepted and a game has been arranged for Friday of next week. The champion Texas team plays at Camden next Thursday and will come here the following day.

On Sunday, May 23, the Lumberjacks go to Gordon for a return game with the Biene Lumber company team.

The following Sunday, May 30, the Lumberjacks will oppose an all-star college team of Arkadelphia at Fair Park. Results of the first four games:

Hope 2, Camden 1; Hope 5, Okav 4; Hope 0, House of David 3; Hope 8, Camden 12.

Hubbell Extends Winning Streak

Beats Pittsburgh 5 to 2 for 21st Consecutive Victory

NEW YORK—(AP)—King Carl Hubbell, defying a dark jinx day and the power of Pirate bats, stretched his National League victory string to 21 Thursday by whipping Pittsburgh 5 to 2 with a six-hit pitching performance.

The victory, netted by a fifth inning uprising on the veteran Waite Hoyt who retired after three runs had crossed the plate, broke the latest Pirate streak that had run to five straight victories. It was the fourth defeat for the Pirates this season.

Dick Bartell shoved Hub into a lead in the first inning by hitting Brandt's second pitch for his eighth homer of the year into the left field stands. Hubbell's double and Bartell's single netted the second run in the second inning. In the fifth, the Giants batted around with Gus Mancuso driving in two scores and Hubbell the third.

All available big league records show that Hubbell's string of 21 straight wins, begun last July against the same club, has never been accomplished before. The best previously listed was 20 straight, compiled by Rube Marquard, another Giant great, in 1911 and 1912.

Some species of spiders build in colonies, with several webs united by common lines. Entangled prey belongs to the first spider to reach it.

Texas Aggies Now Sure Share Title

Texas University Must Win Last 2 Games to Tie Record

COLLEGE STATION, Texas—(AP)—The hard-hitting Texas Aggies had at least half of the Southwest Conference baseball championship in their grasp Thursday night by virtue of a 5 to 3 victory over Texas Thursday.

Texas must win Friday's game and the season's final with Texas Christian next week to share the championship.

Dizzy Dean, Wilson to Have Ball School

PHILADELPHIA—(AP)—Manager Jimmy Wilson of the Phillies, and Jerome (Dizzy) Dean, St. Louis Cardinals' pitching star, will conduct a baseball school at Bradenton, Fla., next winter.

Wilson and Dean signed a contract Thursday to operate the school for a month, beginning February 1.

MACKMEN—37th EDITION

This is Connie Mack's 37th Philadelphia team. Some of the Athletics are just kids, most of them are inexperienced, but all are ambitious. Mack isn't predicting a pennant, but believes that the boys will play heads-up ball and battle their way out of the American League cellar. Crouching, left to right, are Chubby Dean, first base; Ace Parker, second base; Frank Hayes, catcher; Lamar Newsome, shortstop; and Bill Werber, third base. Standing, left to right, are Wally Moses, right field; Floyd Yount, center, and Bob Johnson, left.

NOW: Simplified Rates on Classified Ads!

Effective now Hope Star is substituting a new and lightning-quick word-rate in place of the cumbersome old line-court method of figuring classified advertising charges.

HERE'S HOW—

For one time, simply multiply the number of words in your ad by 2 cents. The minimum charge is 30 cents.

For three times, simply multiply by 3 1/2 cents. The minimum is 50 cents.

For six times, multiply by 6 cents. Minimum 90 cents.

For one month (26 insertions) multiply by 18 cents. The minimum charge for a month is \$2.70.

THE RATE'S THE SAME

There's no change in the rate—it has just been placed on a word basis for the public's convenience.

Note from the above schedule how the rate declines as the insertions increase. An ad run for a week (six times) costs 6 cents a word—only a penny a word a day.

Of course the ad must run consecutively—without a break.

HOW TO COUNT

In making your word-count, disregard the classification name such as "For Rent," "For Sale," etc.—this is free. But each initial or name, or complete telephone number, counts as a full word. Here's an example:

FOR RENT—Three-room modern furnished apartment, with garage, close in. Bargain. J. V. Blank, Phone 9999.

Total, 15 words, at 2 cents a word, a charge of 30 cents for one time; at 3 1/2 cents a word, a charge of 53 cents for three times, etc.

NOTE: All orders placed by telephone are due and payable upon presentation of bill.

"The More You Tell, the Quicker You Sell"

Brazil's President May Come North

Vargas, Though Dictatorial, Has Been Friendly to U. S. A.

By DEWITT MACKENZIE
AP Foreign Specialist
NEW YORK.—When (and if) President Vargas of Brazil repays President Roosevelt's visit in June, the American capital will have the unusual experience of meeting a real dictator—one fresh from an exhibition of strong-arm tactics.

Vargas just applied the big-stick to one of his chief lieutenants—General Flores da Cunha, governor of the important state of Rio Grande do Sul. The general's sin was apparently preparing to support for the presidential election next year a candidate not approved by the boss. Vargas virtually stripped da Cunha of executive authority.

Man of Action
That's the way he works. Leader of a country which has the third largest area in the world (following Russia and China), he is a man of action and few words. Few have learned his inner mind, which has been likened to an underground river, flowing to an unknown end.

Fifty-one, swarthy, smiling, Vargas displays a velvet bluntness which belies his dictatorial characteristics. Big in mentality, he is small of stature—barely reaching five feet four inches. He will look like a schoolboy beside the towering American Roosevelt.

Rode in on Revolt
The Brazilian Napoleon came into power through an armed uprising in 1930.—As dictatorial head of the provisional government established by the revolution, he wrought a new republic during four years of apprehension and social tumult marked with an unsuccessful counter-revolution in Sao Paulo.

He gave his country a fresh constitution, and was elected first constitutional president of the second republic. This constitution chartered a new social order, identified rather vaguely as "liberal democracy." As an indication of the trend, women won equal status with men, and workers were safeguarded against summary dismissal, long hours, low wages, and want in illness and old age.

Vargas is credited with having promoted good feeling with foreign countries, especially the United States, Argentina and Uruguay.

The chief materials used in bridge construction today are carbon steel, alloy steels, concrete and masonry.

In Dressy Sandals, Nile-ish Is Stylish

Egyptian beauty such as sultry Aida and languorous Cleopatra never knew, adorns the novel low-heeled evening sandals. Even the goddesses of old Nile would have envied them.

Featured above (top), they are of gold and moss green cordings, and were done especially to carry out the Egyptian theme of intricately draped evening gowns such as Alix designs. The intertwined cordings swathe the feet and tie high above the ankles.

Vamp and heel strap of the open-air evening pumps of white satin (middle left of layout) are decorated with circles of stitched kid. These have all the dignity of a pump combined with the cool, comfortable qualities of a sandal.

The navy kid pumps (center) have square toes and heels and are trimmed with saddle stitching. Truly chic and trim, they should appeal tremendously to the woman who loves smart shoes but simply cannot wear high heels. The novel square lines, flat bows and stitching make even the largest feet look fairly dainty.

The evening sandals of printed crepe (right) have no toes or heels and rather low straps. Wear them with any summer evening gown—except a printed one.

Narrow strips of white kid are swirled over the vamp of a flatter afternoon sandal of navy linen (bottom). For evening, it is developed in silver kid.

Spot of Light Does for "Play" Bullet

Effect of Mimic Rifle Fire Imitated by New Light Beam

By HOWARD BLAKESLEE
AP Science Editor

ITHACA, N. Y.—For mimic warfare, the last word is a bullet of light which imitates accurately the shape of a machine gun bullet.

At a distance of 80 feet this light bullet makes a round, bright spot on a target—an almost exact imitation of a black bullet hole.

It is made by a special bulb invented by D. Ramadano, Cornell university physicist. Bullets of light, somewhat more diffuse, were invented about three years ago, by Capt. C. H. Coates, to save money when the depression made it difficult to get appropriations for target practice.

A real machine gun is pointed at the target. When the trigger is pulled, a light projector fastened to the side of the gun opens a camera-like shutter to flash a spot of light where the bullet would have hit.

Blevins

Mr. and Mrs. H. E. Beauchamp and son, Houston, of Texarkana were weekend guests of relatives in and near Blevins.

Mr. and Mrs. W. R. Stowers and children, Virginia Sue, Billy and Nancy Lou, all of Little Rock, were Sunday guests of K. B. Spears and

Broadcasting Now Is College Course

But It's No "Snap," and Experience Is Only Final Teacher

By AURELIUS KINSEY
AP Feature Service Writer

CHICAGO.—Radio broadcast training has become a popular but by no means snap course at Northwestern and the University of Chicago.

Students start out with "microphone jitters" when all the words stick to their Adam's apples. They no sooner overcome this than they have new "bugs" to overcome—mixing dialects, overplaying parts, failing to "get outside" the reading script.

Many hope to become radio stars but for some there'll never be a chance. Says Northwestern instructor Harold Isbel:

"Putting personality over with the voice is the secret of good radio acting. Our students are constantly after that elusive something that distinguishes between success and mere script reading. It is a trick one learns by experience—or can never get. We can tell a student what to do but we cannot give him the 'feel' necessary to ring the bell."

Mr. and Mrs. Elvin Campbell.

Mr. and Mrs. Jim Black of Texarkana were Saturday guests of Mr. and Mrs. Chester Stephens.

Mr. O. B. Holnett of Hope was a business visitor in Blevins Wednesday.

Mr. and Mrs. Tom J. Stewart and Dwight Stewart visited relatives in Prescott Sunday afternoon.

Mr. and Mrs. Roy Nelson and son, Howard, of Texarkana were weekend guests of Mrs. Sarah Nelson.

Coy Cummings of Nashville was the Sunday guest of his parents, Mr. and Mrs. Will Cummings.

Carl Brown of Hope was the weekend guest of his mother, Mrs. Kate Brown.

Mrs. Jack Bonds is nursing in Cora Donnell hospital at Prescott this week. Tom Phillips is attending court in Texarkana this week.

Mrs. Bert Carter was shopping in Hope Tuesday.

Mr. and Mrs. C. E. Brooks and children were shopping in Hope Saturday. J. A. Wade spent Wednesday in Hope attending to business.

Mrs. Chester Stephens was the weekend guest of her parents, Mr. and Mrs. John Huxley near Sweet Home. Mr. and Mrs. Walter Compton of Little Rock were weekend guests of Mr. and Mrs. Edgar Edwards.

Miss Charline Stewart visited Mrs. Carl Brown in Hope Saturday.

CLUB NOTES

Bright Star
The Bright Star Home Demonstration club met on April 28, with six members present.

Mrs. Howard Thompson led the devotional. The demonstration was on styles of clothes.

Miss Ella Posey was a visitor and we all enjoyed her talk on other clubs.

day night guest of her sister, Mrs. Velma Brown.

Miss Jettie Johnson spent Monday with Tee Cate.

Mr. and Mrs. Lafayette Sinclair are the proud parents of a daughter.

The Missionary Society met on Saturday. The opening song "Shall We Gather at the River," Devotional by Mrs. McDonald. First Psalm, 6 verse reading by Florence Martin.

The meeting day has been changed to Monday May 24. We will have Mrs. Jordan with us on our next meeting day.

very much.

Mrs. O. A. McKnight acted as hostess and served delicious cookies to those present.

Several games were played after which the meeting adjourned to meet at Mrs. C. E. Boyce's on May 26. The demonstration will be green salads from the garden.

A very large portion of the world output of Christmas cards is manufactured in Germany. The American greeting card business, however, is no small one.

properties, they bought, not Midamerica Corp., but the securities Midamerica held. Not involved in the sale were approximately \$1,250,000 in Cleveland Railway stock, and control of the big Higbee Co. department store in Cleveland.

These diverse items, then, must be figured in, in addition to the sale price paid by Young, Kolbe and Kirby, when the profit on the whole transaction is gauged.

The upshot of it all that the George and Frances Ball Foundation apparently stands to profit by about \$4,000,000 from the deal.

So, unexpectedly enough, the residuary legate, as you might say, of the Van Sweringen brothers' long and involved efforts at money-making is an organization set up to dispense money for religious and charitable purposes.

That is will begin dispensing money in the near future is improbable. The receiver for the Van Sweringen estate is preparing to go to court to see whether the estate still has the right to exercise the option which the brothers held before their death—an option to buy back the securities they had sold, at the sale price, plus interest.

Until that issue is finally settled by the courts, the George and Frances Ball Foundation is not apt to do anything with its profit except sit on it.

The foundation is managed by a board of directors, composed of the incorporators. Named in the incorporation papers are George A. Ball; his wife, Frances; their daughter, Elizabeth W.; Leland Rex Robinson of Bronxville, N. Y., a son-in-law of the late L. L. Ball, the financier's brother, and Dr. Lemuel A. Pittenger, president of the Ball State Teachers College at Muncie.

Evidence of Generosity
George A. Ball's record as a philanthropist is a fair sign that eventually the profits of the Van Sweringen em-

President Returns to White House

Roosevelt Sounds Out Sentiment During Cross-Country Tour

WASHINGTON.—(AP)—President Roosevelt, refreshed by a fishing cruise in the Southwest, returned to Washington Friday to give new life to the drive for his major economic objectives.

The chief executive, whose return trip from Texas proved a sentiment-sounding tour of the mid-section of the country, was met at the station by Mrs. Roosevelt, Vice-President Garner, and virtually the entire cabinet.

He Would Add 6 Alphabet Letters

English Printer Argues 32 Letters More Effective Than 26

WAKEFIELD, England.—(AP)—Because he thinks English spelling requires too many letters, T. A. Braithwaite, a local printer, has invented a 32-letter alphabet.

He'd been worrying about it for eight years, then the solution came to him in the middle of the night. His alphabet would keep the present 26 letters, but would add six new ones for the sounds of:

Long "a" as in "bathe."
Long "e" as in "need."
Long "o" as in "code."
And "eng," "thee," and "shee."

Braithwaite is using the new alphabet to print a book he has written on "slumclearance and town planning in the realm of letters," and predicts that it will be adopted generally one of these days.

"As a printer," he said, "I quite realize what an enormous cost it would be for the printing trade to cast new letters, but I believe that the outlay would be recouped within a year."

"Redundant letters being left out and new symbols being used would mean that a novel of ordinary length could be reduced by 50 pages and a newspaper page of seven columns reduced by one column, at a great saving in paper and labor costs."

Three of the directors of the George and Frances Ball Foundation are Leland Rex Robinson, left; George A. Ball, center, and Lemuel A. Pittenger, right. Pittenger is the only director not a member of the Ball family.

Not Created for Philanthropy, Van 'Empire' May Yield \$4,000,000 Windfall for Charity

By BRUCE CATTON
NEA Service Staff Correspondent

Probably the last thought that could have entered the canny minds of the late brothers Van Sweringen, when they were looping together their fantastic "empire," would have been that they were laying up a handsome windfall for charity.

The brothers were not philanthropists. But because they died before anybody expected them to, and left the leading strings of their properties in the hands of a quiet Indiana business man who has made millions and given millions away, some \$4,000,000 rests today in the hands of a philanthropic foundation.

George A. Ball of Muncie, Ind., paid most of the \$3,121,000 for which—at a Wall Street sale, in 1935—the Van Sweringen properties changed hands.

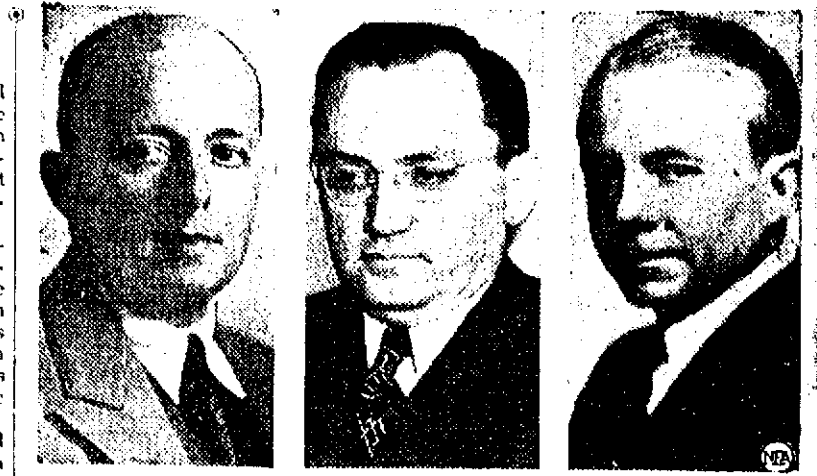

When these properties were resold the other day to Robert R. Young, Frank F. Kolbe and Allan P. Kirby, the price was \$6,375,000.

This, on the face of it, would mean a profit for Ball of about 100 per cent. But this deal—like all others connected with the Van Sweringen holdings—is slightly complicated.

Got Ball \$1,000,000
Approximately a month ago, Ball created the George and Frances Ball Foundation as a self-perpetuating charitable trust. To it, he transferred the common stock of Midamerica Corp., the holding company through which he and George A. Tomlinson had acquired the Van Sweringen securities.

Before this trust was created Ball had got back upwards of \$1,000,000 of his original investment when Midamerica sold some 20,000 shares of stock in the Cleveland Railway Co.

When Young, Kolbe and Kirby finally bought the Van Sweringen

New owners of the Van Sweringen properties are, left to right, Allan P. Kirby of Wilkes-Barre, Pa.; Frank F. Kolbe and Robert R. Young, New York investment brokers.

pire are apt to be spent on the kind of activities that are not intended to make a profit for anyone.

You could not pass through Muncie, for instance—not to speak of staying there for any length of time—without seeing ample evidence of the scope of his giving.

On the outskirts of the city is the Ball State Teachers College. Most of its buildings were given by Ball.

Not far from the college is the Ball Memorial Hospital, on which was spent \$1,500,000. Both the Y. M. C. A. and the Y. W. C. A. buildings in Muncie are Ball gifts. So is the Y. M. C. A.'s fine summer camp, Muncie's Masonic Temple was made possible by Ball money. The state university has received a million of that money.

The Muncie airport was laid out on land donated by the Ball family, and was equipped with Ball money. The

conservative's rebuttal was that the veil set a woman apart as an object of respect, shielded her from a coarse world, and that since "grandmother wore it, it was good for her."

Several old men feared that abolition of the veil would "undermine the institution of matrimony and imperil family life."

Do something about Periodic Pains
Take Cardui for functional pains of menstruation. Thousands of women testify it has helped them. If Cardui doesn't relieve your monthly discomfort, consult a physician. Don't just go on suffering and put off treatment to prevent the trouble.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from their food.

Cardui is a purely vegetable medicine which you can buy at the drug store and take at home. Pronounced "Card-u-i."

And Now—
Nor is that all. Through many years, it is said, deficits at the close of Muncie Community Fund drives were met—anonymous—by the Ball family. So were deficits of the Y. M. C. A. and the Y. W. C. A.

The family has contributed heavily to a hospital for crippled children in Indianapolis. A charitable foundation, organized some years prior to the Van Sweringen deal, has quietly handled a great number of activities, such as seeing to it that tuberculosis cases are properly hospitalized, carrying on welfare work in the city's depressed areas, providing funds for community gardens in the depression, and so on.

No one apparently has ever bothered to tabulate the net total of all this giving. That it runs well up into the millions is unquestionable.

When the legal entanglements are finally cleared away, there seems to be good reason to expect that this new Ball foundation will carry on the work on an equally generous scale.

With money realized from the sale of the Van Sweringen empire, which never pretended to be a non-profit-making organization!

Ben On Veils
TIRANA, Albania.—(AP)—Albanian women are going without the traditional Mohammedan veils—and liking it.

Parliament passed the proposal to prohibit wearing of veils in public just a few days after its introduction and it went into effect March 25.

A few "emancipated" Albanian women formed a lobby and argued that wearing the veil disqualified women for many activities in the modern
